RE: Amended Petition #3541101 for new 50 cent gaming chip and six (6) sets of non-value gaming chips

Dear Ms. Wosnack-Cho:

The staff of the Division of Gaming Enforcement's (Division) Regulatory Enforcement Bureau has reviewed the amendment to Petition #3541101 filed by RIH Acquisitions NJ, LLC d/b/a ACH dated January 31, 2012. Specifically, the amendment to the petition was requested by the Division in order for the Petitioner to submit a new primary color for the proposed 50 cent gaming chip and a new edge design for the non-value gaming chips manufactured by Chipco International. Prior to the receipt of the amended petition, the Division received and reviewed the sample set of the 50 cent gaming chips and six (6) sets of non-value gaming chips which were received in this office on January 25, 2012 and January 26, 2012 respectively. Therefore, there is no need to resubmit the sample chips addressed by this letter.

A review of this amendment to Petition #3541101, the attached schematics and sample sets of chips was conducted by the Division. Specifically, the attached schematics and the sample sets provided by the petitioner depict the use of slate blue as the primary color and light pink as the secondary color (edge spot) for the new 50 cent gaming chip. The six (6) sets of non-value gaming chips are midnight, yellow green, hot pink, beige, olive

and lavender with a secondary color (edge spot) of white that surround the edge of the chips. Additionally, the non-value gaming chips contain the wording "The Atlantic Club, Atlantic City", "Roulette" and are lettered "A through F" on both sides.

Based upon a physical review and analysis of a sample of each chip submitted to the Division for such review and having conducted a physical inspection of the sample chips utilizing a Closed Circuit Television System, the 50 cent gaming chip and non-value gaming chips are acceptable for use.
